

CRISTIAN CABRERA

JUNIOR FULL STACK WEB DEVELOPER

PROFILE

Junior Full Stack Web Developer transitioning from a Telecommunications Engineering background, with hands-on experience building web and e-commerce applications. I combine strong analytical and problem-solving skills with a quality-oriented mindset and continuous learning.

Focused on contributing to real projects while continuing to grow as a software developer.

PROJECTS

El Terrero – **Symfony / PHP / MySQL / Vanilla JavaScript**

Web platform for tracking Canarian Wrestling results and statistics. Developed backend logic, database management, and dynamic views using Symfony and Twig.

[GitHub](https://github.com/CristianDavidCabrera/El_Terrero): https://github.com/CristianDavidCabrera/El_Terrero

PharmaClA – **Symfony / PHP / MySQL / PrestaShop**

Collaborative e-commerce platform for a pharmacy focused on automated stock management. Responsible for e-commerce logic, database integration, and connection with the AI module developed by another team member.

[GitHub](https://github.com/CristianDavidCabrera/PharmaClA): <https://github.com/CristianDavidCabrera/PharmaClA>

Space Force Deluxe – **Vanilla JavaScript / HTML5 / CSS3**

Arcade-style browser game inspired by Space Invaders and Galaga. Implemented game logic, collision detection, keyboard controls, and score tracking using Vanilla JavaScript.

[GitHub](https://github.com/CristianDavidCabrera/Space-Force-Deluxe): <https://github.com/CristianDavidCabrera/Space-Force-Deluxe>

[Live Demo](https://space-force-deluxe-github.netlify.app/): <https://space-force-deluxe-github.netlify.app/>

Personal Portfolio – **Vanilla JavaScript / HTML5 / CSS3**

Responsive personal website showcasing projects and contact information. Developed with Vanilla JavaScript and deployed on Netlify, focusing on clean design and performance optimization.

[GitHub](https://github.com/CristianDavidCabrera/portfolio_cristian_david/): https://github.com/CristianDavidCabrera/portfolio_cristian_david/

[Live Demo](https://cristian-david-portfolio.netlify.app/): <https://cristian-david-portfolio.netlify.app/>

TECHNICAL SKILLS

Software Engineering &

Best Practices

- REST APIs
- Design Patterns
- Clean Code
- MVC

Frameworks & Libraries

- Symfony
- React

Languages & Core

- JavaScript
- PHP
- HTML5
- CSS3

Tools & Collaboration

- Git, GitHub
- JIRA
- Agile Methodologies

CMS / E-commerce

- WordPress
- WooCommerce
- PrestaShop

Databases

- MySQL

CONTACT

- +34 651380551

- [Portfolio](#)

EDUCATION

- BOOTCAMP REBOOT ACADEMY
Fullstack Web Developer specializing in Ecommerce (2025).
- BOOTCAMP 20-Heroes TALENT
Front-end Web Developer (2018).
- ISTQB Certified Tester, Foundation Level (2015).
- CCNA (Cisco Certified Network Associate) (2014).
- ULPGC –**Technical Engineering in Telecommunications, Telematics** (2013)

SOFT SKILLS

- Teamwork
- Troubleshooting
- Attention to detail
- Effective communication

LANGUAGES

- Spanish – Native
- English – B1
- Portuguese – B1

WORK EXPERIENCE

NAVILO MOBILE SL

SEPTEMBER 2014 - JULY 2015

QA Tester

- Manual testing for automotive software projects.
- Testing of native mobile applications for Android and iOS.

BEUMER GROUP IBERIA SL

MAY 2016 - OCTOBER 2017

System Operator

- Management of Automated Baggage Handling System at Fuerteventura Airport.
- Technical reports and investigation and resolution of incidents.
- Coordination and communication with on-site technical team.

INSTITUTO TECNOLÓGICO DE ENERGÍAS RENOVABLES (ITER)

OCTOBER 2017- APRIL 2018

QA Tester

- Web Application Testing
- Creation of automated tests for error detection in software.

VISECO SEGURIDAD Y DEFENSA SL

OCTOBER 2019 - FEBRUARY 2024

Senior Technician and AENA Security Systems Maintenance Coordinator

- Installation, integration, commissioning, and maintenance of security systems and associated subsystems (Access control and CCTV) in airport environments.

TELEFÓNICA INGENIERÍA DE SEGURIDAD

AUGUST 2021- OCTOBER 2021

Senior Technician / Security Systems Maintenance Coordinator

- Led the implementation and management of the operational structure for the AENA airport security systems maintenance contract at Gran Canaria Airport.
- Delivered technical training and knowledge transfer to newly assigned technicians.
- Acted as liaison between AENA contract management and project teams while performing installation, integration, and maintenance of airport security systems.

LANSYSTEMS SERVICIOS INTEGRALES

JULY 2025 - PRESENT

Telecommunications Project Engineer / Technical Supervisor

- Managed and supervised telecommunications and integrated systems projects in high-responsibility technical environments.
- Prepared technical documentation, coordinated multidisciplinary teams.
- Validated solutions in networking, fiber optics, IP CCTV, and access control systems while ensuring deadlines and quality standards.
